Wednesday and Saturday evenings.

DANGER SIGNALS That Warn You of NERVOUSNESS

NONTINUED nervousness leads to nervous prostration. When one breaks down with nervous prostration it is because the nerves are in a state of collapse. This condition occurs between the ages of twenty- and fifty, or when the average person is making the hardest struggle for existence.

The danger signals conditions that indicate the breaking down of the nerves-are not very well known, as many of them have only recently been discovered. Some of these are:

Suspiciousness. Irritability.

Peevishness. Thinking continually of yourself.

Frequent headaches. Loss of concentration.

Fault-finding.

The causes of nervousness outnumber the danger signals twice over. Some of these causes are well known, but many of them are new to most people. Here are some common causes:

Poisons. Too much food. back of exercise. Too much alcohol. Poor food. Bad air. Overwork. Lack of sleep. Narrow interests.

Modern, close in, nicely finished throughout and in fine condition. Price

Thinking of business after busines hours. Too much hurry. These all contribute to nervous prostration. Some of

these things alone will bring it on, in other instances a combination of the evils named above will result in a breakdown of the nerves. Every man is a law unto himself, for what harms one

person's health might benefit another. America leads the world in the number of cases of nervous prostration. Overwork is one of the great causes. Overwork is now a vice; it used to be considered a virtue. It is just as bad as any other bad habit. The high cost of living and the desire of many women to keep up to the pace of their neighbors causes a great many breakdowns. Men seek power and their efforts to obtain it leads them into overwork. Overwork enslaves the

EIGHT WATCHES FOUND ON MEXICAN

held by those officers, and the police notified.

Miranda was taken to the police station where he is being held on the charge of being a suspicious character. Eight watches, one diamond ring, one diamond stick pin, foor watch foba and as many watch charms, and two watch chains were taken from him. Miranda was riding a bicycle, which it was charged had been stolen Thursday morning from the owner in El Paso. The bicycle is at the station for the owner to identify.

Lieweilyn and a boy named Sawyer, who appeared at the station Thursday night identified two of the watches as their property.

Several others were at the police headquarters. Friday morning to examine.

Several others were at the police headquarters.

Several others were at the police head-quarters Friday meraing to examine the watch collection in the effort to locate watches which they said had been stolen from them.

Some Minor Arrests.

Pablo Corrall was arrested Thursday charged with running an express wagon without a license.

H. C. Billings was arrested Thurs-day afternoon charged with fast and reckless driving of an automobile.

Delancy Fonton was placed under ar-rest Thursday afternoon on the charge of discharging firearms in the city lim-its. He was released on bond pending his trial, which is set down for 4.20 oclock Friday afternoon.

MAY NOT SANCTION SUFFRAGE CLAUSE RIBS

Federation of Women's Clubs to End Its Sessions Tonight.

San Francisco, Calif., July 5.—The general Federal of Women's Clubs of the United States, which has been in convention here since Tuesday, June 25, will conclude its sessions here this evening, when Mrs. Phillip N. Moore will surrended the presidence to Mrs.

general Federal of Women's Clubs of the United States, which his been in convention here since Tuesday, June 25, will conclude its sessions here this evening, when Mrs. Phillip N. Moore will surrender the presidency to Mrs. Percy V. Pennybacker, the newly elected executive, and will introduce the other new officials.

Included in the program for the closing day was the report on resolutions. The ardent supporters of woman's suffrage, who are desirous of having the federation endorse the Issue, thus lending the weight of its prestige to the cause, are not quite so hopeful that their efforts will meet with aucces, for the decisive vote—556 to 255-by which Mrs. Percy V. Pennybacker, of Austin, Tex., was elected president over her opposent. Mrs. Phillip Carpenter, attorney of New Yorlk city, rather dampened their spirits, for it was Mrs. Carpenter, who, upon the eve of the election, boldly came out in an address before the convention in favor of equal suffrage. These remains now only the opportunity to make a motion from the floor of the convention in behalf of the soughtfor endorsement, and that such a motion will undoubtedly be rejected is the belief of the convention in the stockers and feeders, \$4.00@8.50; western attenty to 56.00 market steady to 56.00 market strong. the house all the time and to get rest they must go outside of their homes. Women seldom get any fresh air, and any woman desiring to keep in good health ought to walk two or three miles every day. Worry is overwork of the most disastrous kind. It

gives the brain no rest and if persisted in will cause the delicate cells of the brain to decay.

Work is wear and worry is tear.

Exhaustion or fatigue shows itself in physical or mental collapse, which may be due to disease, to over eating or not eating enough, and to various kinds of excesses. Too much pleasure will cause it.

Breakdown can be avoided if the health is cared for properly. There should be moderation in all things. We should be masters of ourselves in all things. Avoid large assemblies where the air is bad, take long breaths, eat good wholesome food, get plenty of sleep and be sure to exercise a little every day. Do not always betrying to do something new or something different. If you should feel tired and exhausted, change your work or rest. Change of work will often do much for the nerves, for it will bring an entirely different set of cells into play. Do not let your mind dwell on your business after business hours. Most men have narrow interests. They should let their spheres widen, take up some hobby or get interested in things other than those connected directly with their work. Horse ridwalking and other forms of exercise create energy, and deep breathing of proper air will give force. Avoid over enting; avoid alcohol, it depresses; avoid

fatigue, avoid eating too much. Don't hurry, don't

Why You SIGH

WHEN any one sighs unconsciously it means they have been taking short breaths and not drawing sufficient oxygen into the lungs. Finally the lungs MUST have more oxygen, they are hungry for it, and so the lungs exert their right and actually force your to take in a great breath of air. This gives them the needed oxygen and they can go on with their work for a while longer, when they will force another "sigh," which is in reality helping themselves to more oxygen in spite of yourself.

MONEY AND METALS

Santa Fe, N. M., July 5.—Santa Fe today celebrated the 220th anniversary of the re-entry of don Diego de Vargas and the reconquest of New Mexico by the Spaniards from the Pueblo Indians, in 1652. The event of the day was a historic pageant, in which lineal descendants of the Spanish conquerors participated in resplendent contumes of the period of the conquest. Indians in war costumes and feathers that were a riot in color, also took part in the procession, many of the war chiefs being descended from the warriors who opposed the Spaniards.
